Capturing the personality of your family

ABOUT ME

Jack & Ellie

Thank you for coming to my website and downloading my brochure. I am just a regular mom of three crazy kids – juggling work and home life. Embarrassingly one of my greatest joys is finding a pair of matching socks for my kids. So much laundry with five people in a family!

Fifteen years ago, I never thought I would be a photographer. I had just graduated college and was working at Ford as a web developer/graphic designer. Once my children came along I realized how much I loved photography, and I quit Ford to begin my photography career. I am so grateful I get to bring happiness and love to people with my art. With every family I meet and every story I tell, I am grateful that this is what I have gotten to call my career for the past 10 years!

FAMILY

A woman with voluminous curly blonde hair, wearing a blue and white patterned dress and a blue beret, is running away from the camera through a wooden pergola structure in a lush garden. The pergola is covered with green vines and leaves. The background shows a well-maintained lawn, trees, and a building in the distance. The overall atmosphere is bright and joyful.
